PROFESSIONAL SUMMARY

Software Engineer with 1+ year of hands-on experience in designing and developing scalable, high-performance web applications using modern technologies including React, Node.js, JavaScript, and Java. Proficient in building full-stack solutions with cloud-based backends such as Supabase and Neon, and experienced in deploying production-ready applications using GitHub and Vercel with seamless API integrations.

TECHNICAL SKILLS

Programming & Web Technologies: JavaScript (ES6+), Java, React.js, Node.js, RESTful API Development, Full-Stack Web Development.
Frontend Development: React.js, Responsive UI Design, Component-Based Architecture, State Management, Performance Optimization.
Backend & Database Technologies: Node.js, Supabase, Neon (PostgreSQL), Database Design, Query Optimization, Server-Side Logic.
Cloud & Deployment Platforms: Vercel (CI/CD, Deployment), GitHub (Version Control, Collaboration), Cloud-Based Application Hosting.
API & Integration: REST API Development, Third-Party API Integration, Secure Data Handling, Authentication & Authorization.
Software Development Practices: Scalable Architecture, Clean Code Principles, Debugging & Testing, Agile Development, Version Control (Git).
Tools & Technologies: Git, GitHub, Vercel, Postman, Modern Development Workflows.

PROFESSIONAL EXPERIENCE

SOFTWARE DEVELOPER **JUN 2025 - Present**

APPLYWIZZ |IT TOWERS,SIDDIPET

- Developed scalable full-stack web applications using React, Node.js, JavaScript, and Java technologies.
- Built a Company Expense Tracker with AI image recognition automating receipt data extraction.
- Designed and developed "Ready to Collab" platform enabling seamless influencer and brand collaboration.
- Delivered 50+ responsive portfolio websites focusing with optimised UI/UX and performance.
- Integrated RESTful APIs and third-party services ensuring secure, efficient, scalable data handling systems.
- Utilized Supabase and Neon PostgreSQL for backend services with optimized database structures efficiently.
- Managed version control and deployments using GitHub and Vercel establishing smooth CI/CD workflows.
- Collaborated across development lifecycle, delivering production-ready solutions.

PROJECTS

COMPANY EXPENSE TRACKER TOOL

- Developed a role-based Company Expense Tracker with separate dashboards for efficient expense management.
- Built using React and Node.js with Supabase for database, authentication, and secure storage.
- Implemented Supabase Storage to manage receipt uploads and integrated AI chat for expense insights.
- Designed dynamic dashboards and optimized large-scale data fetching using Redis caching.
- Leveraged CDN and scalable architecture for low-latency, high-performance, real-time expense tracking.

Big Career Dream

- Developed a large-scale job platform aggregating U.S. job listings by scraping multiple job portals.
- Processed and fetched lakhs of records efficiently using optimized queries and high-performance database handling.
- Handled massive API traffic by distributing requests across servers for scalability and reliability.
- Supported high concurrent users with robust architecture ensuring seamless performance under heavy loads.
- Integrated AI for resume parsing and an intelligent chatbot for enhanced user interaction and insights.

Ready To collab

- Developed "Ready to Collab," a full-stack platform enabling brand–influencer discovery, matching, and campaign management.
- Built using React, Node.js, and REST APIs with scalable backend architecture and optimized database queries.
- Implemented real-time communication, email integrations, and content-sharing workflows for seamless collaboration.

EDUCATION

Master of computer applications **Oct 2023 - Sep 2025**
Osmania University,SF |SIDDIPET|CGPA – 7.89

Bachelor Of Computer Science **Aug 2020 - July 2023**
prathibha degree college| SIDDIPET| CGPA – 8.85

Languages known : English,Telugu & Hindi
