NITHIN ERROJU

Siddipet | +91 6304338275 | nithinerroju21120@gmail.com | GITHUB | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Software Engineer with 1+ year of hands-on experience in designing and developing scalable, high-performance web applications using modern technologies including React, Node.js, JavaScript, and Java. Proficient in building full-stack solutions with cloud-based backends such as Supabase and Neon, and experienced in deploying production-ready applications using GitHub and Vercel with seamless API integrations.

TECHNICAL SKILLS

Programming & Web Technologies: JavaScript (ES6+), Java, React.js, Node.js, RESTful API Development, Full-Stack Web Development.
Frontend Development: React.js, Responsive UI Design, Component-Based Architecture, State Management, Performance Optimization.
Backend & Database Technologies: Node.js, Supabase, Neon (PostgreSQL), Database Design, Query Optimization, Server-Side Logic.
Cloud & Deployment Platforms: Vercel (CI/CD, Deployment), GitHub (Version Control, Collaboration), Cloud-Based Application Hosting.
API & Integration: REST API Development, Third-Party API Integration, Secure Data Handling, Authentication & Authorization.
Software Development Practices: Scalable Architecture, Clean Code Principles, Debugging & Testing, Agile Development, Version Control (Git).
Tools & Technologies: Git, GitHub, Vercel, Postman, Modern Development Workflows.

PROFESSIONAL EXPERIENCE

SOFTWARE DEVELOPER **JUN 2025 - Present**

APPLYWIZZ | IT TOWERS,SIDDIPET

- Developed scalable full-stack web applications using React, Node.js, JavaScript, and Java technologies.
- Built a Company Expense Tracker with AI image recognition automating receipt data extraction.
- Designed and developed "Ready to Collab" platform enabling seamless influencer and brand collaboration.
- Delivered 50+ responsive portfolio websites focusing with optimised UI/UX and performance.
- Integrated RESTful APIs and third-party services ensuring secure, efficient, scalable data handling systems.
- Utilized Supabase and Neon PostgreSQL for backend services with optimized database structures efficiently.
- Managed version control and deployments using GitHub and Vercel establishing smooth CI/CD workflows.
- Collaborated across development lifecycle, delivering production-ready solutions.

PROJECTS

COMPANY EXPENSE TRACKER TOOL

- Developed a role-based Company Expense Tracker with dedicated dashboards for admins and employees to streamline expense submission, approval, and tracking.
- Built using React (frontend) and Node.js (backend), leveraging Supabase for database management, authentication, and secure storage.
- Integrated Supabase Storage to handle receipt uploads, ensuring secure and scalable file management.
- Implemented an AI-powered chat assistant to provide intelligent insights on expenses, helping users analyze spending patterns and trends.
- Designed dynamic dashboards with real-time data visualization and optimized performance using Redis caching for large-scale data fetching.
- Utilized CDN and scalable architecture to ensure low latency, high availability, and smooth real-time expense tracking.

Ready To collab

- Developed a full-stack platform enabling brand–influencer discovery, matching, and campaign management.
- Built using React, Node.js, and REST APIs with a scalable backend and optimized database queries.
- Implemented a real-time messaging system for seamless communication between brands and creators.
- Integrated email notifications for messages, campaign updates, and collaboration requests.
- Designed content-sharing workflows for deliverable submission and review.
- Optimized performance to support scalable, multi-user campaign operations.

EDUCATION

Master of computer applications **Oct 2023 - Sep 2025**
Osmania University,SF | SIDDIPET | CGPA – 7.89

Bachelor Of Computer Science **Aug 2020 - July 2023**
prathibha degree college | SIDDIPET | CGPA – 8.85

Languages known : English,Telugu & Hindi
